

PLANTING & PROTECTION:-

“WELL SOWN IS HALF GROWN” and John Deere® offer a full range of equipment for planting and seeding all type of crops. Small end-wheel drills, folding drills, specialist direct drills, no-till drills and precision planters. Once your crop is planted, protect your investment with a John Deere® Sprayer, suitable for orchard, linkage mounted and trailed applications with up to 4,250 litres capacity.

John Deere® offer a wide range of other machinery including Telehandlers, Engines, Industrial & Commercial Equipment, Electric Generators and other equipment. For further details, talk to A.T.C.

John Deere® are aware of the need to offer competitively priced parts for older tractors, so in addition to GENUINE John Deere® PARTS, replacement parts are available through Parts Country / Vapromatic, to suit MASSEY FERGUSON, DAVID BROWN and INTERNATIONAL tractors.

JOHN DEERE

TRACTORS:-

John Deere® offer a full range of World beating tractors from 16 through a massive 500 engine hp. Select from a choice of open operator station, with canopy or air-conditioned cab along with transmission, hydraulics, drive line and wheel options, all available here in Libya from AAT. Specifications can be adjusted to meet your needs and degree of sophistication. Discuss with A.T.C, all of your possible options.

HARVESTING EQUIPMENT:-

From small simple technology four straw walker machines, to the latest rotary combine technology, John Deere® have a combine to meet your needs. A full range of other Harvesting Equipment is also available from Disc Mowers, Mower Conditioners, Windrowers, Forage Harvesters, Small Rectangular Balers, Round Balers, Tedders and Rakes. John Deere® have the answer to your harvesting needs.

CULTIVATION EQUIPMENT:-

A range of implements to suit the tractors in the John Deere® Range. From single shank rippers to 32 feet wide tandem disc harrows, John Deere® provide quality attachments to help you rip, plough, disc, till, consolidate and incorporate crop residue. Other implements and attachments are available from John Deere®, discuss these with A.T.C, and review full details and specifications.
